

AYODELE SIMILOLUWA

Software Engineer

SUMMARY

A creative, detail-oriented software Engineer, seeking to continually improve his knowledge base and obtain relevant professional experience. A team player with a proven record of working on the front end of web applications. Aspiring to contribute my skills to a tech company with a worldwide presence.

WORK EXPERIENCE

SOFTWARE ENGINEER AT KONNECTED - LONDON, UK

(Remote) January 2023 - present

- Collaborated with a team of developers to implement the UI components and the logic for the web platform of the startup, making it responsive while applying best practices.
- Executed network calls and API integration with tools like Redux Tool Kit Query.

INTERN AT POSTERITY - LAGOS, NIGERIA

May 2021 - June 2021

- Presented and defended design implementations and other key deliverable to peers and senior stakeholders at daily online stand up meetings.

Recent Projects

Trailerpoint App - The app showcases popular and trending movies, providing trailer using the Movie Data Base API integration.

Fitness Junkie App - An app created using react and tailwind CSS to improve my gym performance. It features over 1000 fitness programs sourced from Rapid API.

Other Projects - Portfolio Project, Web Version of Resume, Quotes Generator App, Trust- single page data analysis website, Replicated design of Blyt Landing Page.

INTERN AT BRIGHT NETWORK INTERNSHIP EXPERIENCE - UK

(Remote) July 2020

- Participated as a member of the first ever cohort, in a series of online seminars (Management, Networking etc) organized by Bright Network UK in partnership with Macquarie, Goldman Sachs, HSBC.
- Collaborated with colleagues from around the world to review work samples, conduct research and provide key statistics on Eastern Europe's Low cost carrier market including market size, top players and business models.
- Created a report, using basic visualization techniques to show case my findings from research carried out.

VOLUNTEERING

IM Tech Meetup - UK

(Remote) February 2023

Volunteered as a speaker at the February edition of the meetup, where I spoke on the topic "Legal-Tech: Transitioning from Law to Tech."
